WHAT WE DO

Mixed Company Theatre facilitates workshops and presentations of Forum Theatre - an UNESCO-recognized educational tool - to engage, educate and empower audiences in schools, communities, and workplaces.

This high impact and participatory form of theatre is known for its effectiveness in helping students tackle issues that directly affect them. Forum Theatre offers students an opportunity to "rehearse for reality" and try out their own solutions for positive change.

WHAT IS FORUM THEATRE?

In a typical Forum Theatre play, a story representing a social issue is created and performed by actors. Students are then invited onto the stage by a trained facilitator to enact an "intervention" where they can either replace a character or suggest a change to the story to result in a positive, alternative ending.

Through open and supportive Forum Theatre facilitation, students are able to share and explore strategies with one another in a safe artistic environment.

TESTIMONIALS & IMPACT

80%

of educators reported that our LFT presentations "engaged their students in dialogue about challenging situations and social issues" in 2021-22.

"Personally, I really love the interactive aspect of the presentation. Not only are we given realistic presentations about how the "new normal" affected students' mental health, but we were also given the opportunity to interact and voice out our opinions regarding the subject matter. Through this, the presentation made me reflect more on my actions and words towards others."

- Student

"I really appreciated how the [Forum Theatre] format allowed students to immerse themselves in situations and was impressed with the level of student participation... they could test out their theories in real time. The students got the chance to speak up for themselves..."

- Timothy, Youth Worker and Teacher

"Very valuable for the students involved. They were able to experience Forum Theatre first hand in a safe and welcoming environment!"

CURRICULUM LINKS

Our Arts programming closely follows curriculum expectations for English, Health and Physical Education, Drama, and Social Sciences.

Mixed Company's Forum Theatre programming requires students to use their **Social-Emotional Learning Skills** and **Personal Awareness** to analyze, question, or empathize with the decisions made by the characters. They allow students to practice identifying communication strategies, exploring the creation of art, and the promotion of equity and social justice.
